

# LunarX (LNX) – Whitepaper

## Introduction

LunarX (LNX) is a **next-generation decentralized digital asset** built on the **Binance Smart Chain (BSC)**. Our mission is to create a **scalable, secure, and community-driven** cryptocurrency that provides high liquidity, rewards for holders, and long-term sustainability through an **Auto-Liquidity & Token Burn** mechanism.

## Vision & Mission

- ◆ **Vision:** To establish LunarX (LNX) as a leading DeFi token with mass adoption and a strong global community.
- ◆ **Mission:** To build a transparent, fair, and investor-friendly ecosystem that promotes liquidity, rewards long-term holders, and fosters innovation in the crypto space.

## Tokenomics

✓ **Total Supply: 10 Billion LNX (10,000,000,000)**

✓ **Token Allocation:**

- 40% **Presale & Initial Liquidity** – Investors & market liquidity. •
- 20% **Marketing & Partnerships** – Promotions, listings, and partnerships. •
- 15% **Team & Development** – Locked for long-term stability. •
- 10% **Community Rewards & Airdrops** – Staking & giveaways. •
- 10% **Reserve & Future Development** – For scalability and future growth. •
- 5% **Ecosystem & Governance** – Community-driven governance. •

**Transaction Fees:**

- 2% **Marketing Wallet** – For advertising & influencers. •
- 1% **Liquidity Pool (LP)** – Automatically added to PancakeSwap LP. •
- 0.5% **Burn Mechanism** – Reducing supply over time. •

## Key Features

- ✅ **Auto-Liquidity System:** Ensuring constant price stability by automatically adding a portion of each transaction to liquidity.
- ✅ **Deflationary Model:** A 0.5% burn per transaction to reduce supply and increase token scarcity over time.
- ✅ **Staking & Rewards:** Long-term holders receive rewards for securing the ecosystem.
- ✅ **Multi-CEX & DEX Listings:** Expanding availability across major trading platforms.
- ✅ **Community-Driven Governance:** Token holders can participate in voting on major decisions.
